About the Company

▶ RVFX GLOBAL is a financial services company that provides traders access to a platform for buying and selling foreign currencies. Forex is short for foreign exchange. Transactions in the forex market are always between a pair of two different currencies

▶ Forex trading is the process of speculating on currency prices to potentially make a profit. Currencies are traded in pairs, so by exchanging one currency for another, a trader is speculating on whether one currency will rise or fall in value against the other.
